as part of the **Structured Products Programme for the issuance of Notes, Certificates and Warrants**

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such in the General Conditions, the Product Conditions and the applicable Asset Terms (as may be amended and/or supplemented up to, and including, the Issue Date) set forth in the Base Prospectus dated 27 July 2017, as supplemented on 9 August 2017, 31 August 2017, 26 September 2017, 14 November 2017, 21 November 2017, 8 December 2017, 8 January 2018, 8 February 2018, 2 March 2018, 16 April 2018, 15 May 2018 and by any further supplements up to, and including, the Issue Date and the date of listing of the Securities, which together constitute a base prospectus for the purposes of Directive 2003/71/EC, as amended from time to time, including by Directive 2010/73/EU (the "**Prospectus Directive**"). This document constitutes the Final Terms of the Securities described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with such Base Prospectus as so supplemented. A summary of the Securities is annexed to these Final Terms. Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus as so supplemented. Copies of the Base Prospectus and each supplement may be obtained from the registered office of the Issuer and the offices of the Agents specified herein.

These Final Terms comprise the final terms for the issue and admission to trading on the regulated market of the Luxembourg Stock Exchange of the Securities. The Final Terms will be available for viewing on the website of the Luxembourg Stock Exchange (www.bourse.lu).

SUMMARY OF THE SECURITIES

Summaries are made up of disclosure requirements known as "**Elements**". These Elements are numbered in sections A – E (A.1 – E.7).

This Summary contains all the Elements required to be included in a summary for these types of Securities and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of Securities and Issuer, it is possible that no relevant information can be given regarding such Element. In this case a short description of the Element is included in the summary and marked as "Not applicable".

Section C – Securities		
C.1	Type and class of securities being offered and security identification number(s):	The securities (the " Securities ") are certificates. The Securities of a Series will be uniquely identified by ISIN : XS1009865749; Common Code : 100986574; Swiss Security Number : 40200313.
C.2	Currency:	The currency of the Securities will be Polish zloty (" PLN ") (the " Settlement Currency ").
C.5	Description of restrictions on free transferability of the Securities:	The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the " Securities Act ") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations.
C.8	Description of rights attached to the securities, ranking of the securities and limitations to rights:	Rights: The Securities will give each holder of Securities (a " Securityholder ") the right to receive a potential return on the Securities (see Element C.18 below). The Securities will also give each Securityholder the right to vote on certain amendments. Ranking: The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding. Limitation to Rights: <ul style="list-style-type: none"> • The Issuer may redeem the Securities early for illegality reasons. The Securities may be redeemed early following an event of default. In each such case, the amount payable in respect of each Security on such early redemption will be equal to the Unscheduled Termination Amount, and no other amount shall be payable in respect of each Security on account of interest or otherwise. • Following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), the Issuer may redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount, and no other amounts shall be payable in respect of the Securities on account of interest or

otherwise following such determination by the Issuer.

Where:

- **Unscheduled Termination Amount:** in respect of each Security (a) if the Security is redeemed early for illegality reasons or following an event of default, an amount (which may be greater than or equal to zero) equal to the value of such Security immediately prior to it becoming due and payable following an event of default or, in all other cases, as soon as reasonably practicable following the determination by the Issuer to early redeem the Security, as calculated by the calculation agent using its then prevailing internal models and methodologies, or (b) if the Security is redeemed following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), an amount equal to the *sum* of (i) the Minimum Payment Amount, *plus* (ii) the value of the option component of the Security on the Unscheduled Termination Event Date, *plus* (iii) any interest accrued on the value of the option component from, and including the Unscheduled Termination Event Date to, but excluding, the date on which such Security is redeemed. The option component provides exposure to the underlying asset(s) (if any), the terms of which are fixed on the trade date in order to enable the Issuer to issue such Security at the relevant price and on the relevant terms and will vary depending on the terms of such Security.

For the avoidance of doubt, if a Security is redeemed following an event of default, the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).

- **Unscheduled Termination Event Date:** the date on which an event resulting in the unscheduled redemption of the Securities following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s) has occurred.
- **Minimum Payment Amount:** 100 per cent. of the Nominal Amount.
- Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may adjust the terms and conditions of the Securities without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), or may redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount as described above (and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer).
- The terms and conditions of the Securities contain provisions

		<p>for convening meetings of Securityholders to consider any matter affecting their interests, and any resolution passed by the relevant majority at a meeting will be binding on all Securityholders, whether or not they attended such meeting or voted for or against the relevant resolution. In certain circumstances, the Issuer may modify the terms and conditions of the Securities without the consent of Securityholders.</p> <ul style="list-style-type: none"> • The Securities are subject to the following events of default: if the Issuer fails to pay any amount due in respect of the Securities within 30 days of the due date, or if any events relating to the insolvency or winding up of the Issuer occur. • The Issuer may at any time, without the consent of the Securityholders, substitute for itself as Issuer under the Securities any company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property. • Governing Law: The Securities are governed by English law.
C.11	Admission to trading:	Application has been made to admit the Securities to trading on the regulated market of the Luxembourg Stock Exchange.
C.15	Effect of the underlying instrument(s) on value of investment:	<p>The value of the Securities and the Redemption Amount payable in respect of Securities being redeemed on the Maturity Date will depend on the performance of the underlying asset(s) on the Averaging Dates.</p> <p>See Element C.18 below for details on how the value of the Securities is affected by the value of the underlying asset(s).</p>
C.16	Scheduled Maturity Date or Settlement Date:	The scheduled Maturity Date of the Securities is 5 currency business days following the final Averaging Date (expected to be 20 May 2022).
C.17	Settlement Procedure:	<p>The Securities will be delivered by the Issuer against payment of the issue price. D.6	<p>Key risks that are specific to the Securities and risk warning that investors may lose value of entire investment or part of it:</p>	<p>The Securities are subject to the following key risks:</p> <ul style="list-style-type: none"> • The issue price or the offer price of the Securities may be more than the market value of such Securities as at the issue date, and more than the price at which the Securities can be sold in secondary market transactions. The issue price or the offer price of the Securities may take into account, where permitted by law, fees, commissions or other amounts relating to the issue, distribution and sale of the Securities, or the provision of introductory services, expenses incurred by the Issuer in creating, documenting and marketing the Securities and amounts relating to the hedging of its obligations under the Securities. • The market value of the Securities and the amount payable or deliverable at maturity depend on the performance of the underlying asset(s). The performance of an underlying asset may be subject to sudden and large unpredictable changes over time (known as "volatility"), which may be affected by national or international, financial, political, military or economic events or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. • A secondary market for the Securities may not develop and, if it does, it may not provide the investors with liquidity and may not continue for the life of the Securities. Illiquidity may have an adverse effect on the market value of the Securities. The price in the market for a Security may be less than its issue price or its offer price and may reflect a commission or a dealer discount, which would further reduce the proceeds you would receive for your Securities. • The market value of the Securities will be affected by many factors beyond the control of the Issuer (including, but not limited to, the creditworthiness of the Issuer, the interest rates and yield rates in the market, the volatility of the underlying asset(s) (if any), etc.). Some or all of these factors will influence the value of the Securities in the market. • The total size of Securities being issued on the issue date may be greater than the amount subscribed or purchased by investors as the dealer may retain some of the Securities as part of its issuing, market-making and/or trading arrangements or for the purposes of meeting future investor

		<p>demand. The issue size of the Securities should not be regarded as indicative of the depth or liquidity of the market, or the demand, for the Securities.</p> <ul style="list-style-type: none"> • The levels and basis of taxation on the Securities and any reliefs from such taxation will depend on an investor's individual circumstances and could change at any time. The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for investors. • In certain circumstances (for example, if the Issuer determines that its obligations under the Securities have become unlawful or illegal or following an event of default the Securities may be redeemed prior to their scheduled maturity. In such circumstances, the Unscheduled Termination Amount payable may be less than the original purchase price and could be as low as zero. No other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer. • Following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), the Issuer may redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount (and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer). In such circumstances, the Unscheduled Termination Amount payable will be at least equal to the Minimum Payment Amount, but may be less than what the redemption amount or settlement amount would have been if such event had not occurred. • Following early redemption of Securities, investors may not be able to reinvest the redemption proceeds in an investment having a comparable rate of return. Investors in Securities may therefore lose some or all of their investment in such case. • Investors will have no rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any underlying asset referenced by the Securities. • Investors may be exposed to currency risks because the underlying asset(s) may be denominated in a currency other than the currency in which the Securities are denominated, or the Securities and/or underlying asset(s) may be denominated in currencies other than the currency of the country in which the investor is resident. The value of the Securities may therefore increase or decrease based on fluctuations in those currencies. • The Issuer is not obliged to maintain the listing of the Securities. If the regulated market or other market in respect of which the Securities are listed and/or admitted to trading closes, or if the relevant regulated market in respect of which the Securities are admitted to trading is replaced with a market that is not a regulated market, the Issuer may de-list
--	--	---

		<p>the Securities or may consent to the Securities to be admitted to trading on such replacement market instead.</p> <ul style="list-style-type: none"> • The Issuer may apply any consequential postponement of, or any alternative provisions for, valuation of an underlying asset following certain disruption events in relation to such underlying asset, each of which may have an adverse effect on the value of and return on the Securities. • The amount(s) payable (or deliverable) on the Securities (whether at maturity or otherwise) will be based on the average of the applicable values of the underlying asset(s) on the specified averaging dates. If the value of the underlying asset(s) dramatically surged on one or more of such averaging dates, the amount payable (or deliverable) may be significantly less than it would have been had the amount payable been linked only to the value of the underlying asset(s) on a single date. • The performance of an index is dependent upon macroeconomic factors which may adversely affect the value of Securities. An investment in the Securities is not the same as a direct investment in futures or option contracts on such index nor any or all of the constituents included in each index and Securityholders will not have the benefit of any dividends paid by the components of such index, unless the index rules provide otherwise. A change in the composition or discontinuance of an index could adversely affect the value of and return on the Securities. • "Benchmarks" are subject to recent national, international and other regulatory reforms, which may cause such "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to a "benchmark". • The Issuer may modify the terms and conditions of the Securities without the consent of Securityholders for the purposes of (a) curing any ambiguity or correcting or supplementing any provision if the Issuer determines it to be necessary or desirable, provided that such modification is not prejudicial to the interests of Securityholders, or (b) correcting a manifest error. • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may adjust the terms and conditions of the Securities without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s). • In making discretionary determinations under the terms and conditions of the Securities, the Issuer and the calculation agent may take into account the impact on the relevant hedging arrangements. Such determinations could have a material adverse effect on the value of and return on the Securities. • Subject to the conditions and other restrictions set out in the

		<p>terms and conditions of the Securities, the Issuer may be substituted without the consent of Securityholders in favour of any affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property.</p> <ul style="list-style-type: none"> The Issuer is subject to a number of conflicts of interest, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the underlying asset(s) or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose. <p>Investors may lose some or all of their investment if one or more of the following occurs: (a) the Securities do not provide for scheduled repayment in full of the issue or purchase price at maturity (or over the relevant instalment dates, if applicable) or upon mandatory early redemption or optional early redemption of the Securities, (b) the Issuer fails and is unable to make payments owing under the Securities, (c) any adjustments are made to the terms and conditions of the Securities following certain events affecting the underlying asset(s) and/or the Issuer's hedging arrangements, that result in the amount payable or shares delivered being reduced, or (d) investors sell their Securities prior to maturity in the secondary market at an amount that is less than the initial purchase price.</p>
Section E – Other		
E.2b	Reasons for the offer and use of proceeds:	Not applicable; the net proceeds from the issue of the Securities will be used by the Issuer for its general corporate purposes (including hedging arrangements).
E.3	Terms and conditions of the offer:	The Securities have been offered to the dealer at the issue price. The Securities are not being publicly offered.
E.4	Interests material to the issue/offer:	Fees shall be payable to the distributor(s). The Issuer is subject to conflicts of interest between its own interests and those of holders of Securities, as described in Element D.6 above.
E.7	Estimated expenses charged to the investor by the Issuer/offeror:	The dealer will pay a fee to the distributor(s) in connection with the issue of up to 5.00 per cent. of the Nominal Amount per Security upfront. The issue price and the terms of the Securities take into account such fee and may be more than the market value of the Securities on the issue date.
